📄 **Project Quotation for Workspace Booking Website**

Client Name: [Client's Name]
Developer: Chandan Samantaray
Date: 28 July 2025
Project Duration: 45 to 60 Days
Technology Stack: MERN (MongoDB, Express, React, Node.js)

✅ Project Overview

A responsive workspace booking platform allowing users to discover, filter, and book workspaces (desks, rooms, or offices). Includes admin control panel, payment integration, and user-friendly interfaces.

🗂️ Features Breakdown

1. User Panel

- User Registration/Login (JWT Auth)
- Browse & Search Workspaces
- Check Availability & Pricing
- Book Workspace by Time Slot or Date
- Online Payment Integration (Razorpay/Stripe)
- Booking History & Email Notifications
- Edit Profile & View Bookings

2. Admin Panel

- Secure Admin Login
- Dashboard with Stats
- Add/Edit/Delete Workspaces
- Manage User Bookings
- View Earnings Report
- Manual Booking Management

3. System Features

- Role-Based Access Control (User/Admin)
- Email Notification (SMTP)
- Image Upload (Cloud or Local)
- Mobile Responsive UI
- SEO-Friendly URLs & Meta Tags
